

DATASHEET

CIPE

GENERAL

Art.Nr:	L-0615-0,6	Standards:	EN 566:2017
GTIN:	4030281197423	Net weight:	0.03 kg
E-class number:	40-02-01-90	Gross weight:	0.03 kg
Customs tariff number:	63079098		

DATASHEET

CIPE

An innovative weaving procedure allows CIPE slings to be made without splices or seams. This not only prevents weak points, it makes handling much easier. - The kernmantle construction using Dyneema® and polyamide combines high strength with UV resistance and durability - No seams to get in the way when threading through tight natural features to build anchors or when securing belay stations - A narrow diameter of 6 mm makes the sling very light, only 0.47 g/cm

FEATURES

Application areas:	Bouldering, Via ferrata, Sport climbing, Alpine climbing, Alpine tours
Fallindicator:	No
Colour:	Blue, White
Hand wash:	40 °C
Edge approved:	No
Maximum lifetime:	10 years
Maximum temperature:	45 °C
Minimum tensile strength:	22.00 kN
Minimum temperature:	-35 °C

DIMENSIONS

length_lanyard:	0.60 m
-----------------	--------

MATERIAL

Material:	Polyester
